The Allegheny Regional Asset District is an area wide special purpose unit of local government that exists under authority of Pennsylvania Act 77 of 1993. The area of the District is the same as Allegheny County, Pa. The purpose of the District is to distribute half of the proceeds from a one percent county sales tax to projects and facilities designated as regional assets. The act specifically describes those assets as civic, recreational, sports and cultural facilities, libraries and other entities as determined by the Board of Directors.

Grants to regional assets are made through the budget process. Under the Act, the District is required to prepare a preliminary budget ninety days prior to the end of its fiscal year, which is the same as a calendar year. It then must adopt a final budget thirty days prior to the end of its fiscal year. Final allocations must be supported by six of the seven voting Board members who are required to hold a public hearing on the proposed budget.

This preliminary budget and individual allocations are subject to modification prior to adoption. It does not represent final Board approval of particular allocations.

Certain assets have been given status as “contractual assets”; that is, they have contracts with the District guaranteeing funding for a period of five years (2015-2019). In addition, the District has entered into a multi-year commitment with the Sports and Exhibition Authority related to financed facility debt service. The District has also elected to fund other organizations referred to as “annual assets” which means they must apply for support consideration each year. The budget is organized to reflect these three asset categories.

Questions or comments concerning the budget may be addressed to the District in writing, via appearance at a public hearing or during the public comment period held at each regularly scheduled Board meeting. A schedule of meetings as well as additional information may be obtained from the District office at:

Board Members:

As members of the allocations committee, our charge today is to submit for your consideration a preliminary budget for 2019 – and, as in all prior years, it has been done with serious deliberation, with deep examination of the applications, and with scores of hours of public hearings.

This year, it is also done with the special excitement that comes with special anniversaries. At the end of this year, RAD will adopt its 25th budget, a silver anniversary that is notable for the deep and substantial impact the RAD program has had in the region: by the end of next year, the RAD sales tax is expected to have invested $4 billion in the Allegheny County economy. As you know, half of the proceeds fund our regional libraries, parks and trails, sports and civic facilities, regional facilities, arts and culture organizations, and transit. The other half goes directly to the county and its municipalities for tax reform and municipal services.

Twenty-five years ago, the Pennsylvania Legislature said that a dedicated source of revenue was required to “preserve, improve and develop the region’s civic, recreational, library, sports, cultural and other assets...” and that new methods of cooperation were needed to improve those assets.

As RAD enters into our 25th year, the record indicates that this mission is being carried out not only by the key public support provided by this board, but also by the foundation, corporate and individual support that so generously contributed to our regions success.

With that in mind, we are submitting for your consideration RAD’s 25th preliminary budget that totals a record $108.5 million, including recommendations for 131 operating and capital grants to 104 organizations.

In addition to funding for these organizations, and in recognition of our 25th anniversary, we are also recommending a new $2.5 million grant making project called This is RAD!

This is RAD! will shine a spotlight on bold, forward-looking projects that demonstrate the creative ability of RAD assets to inspire the region for the next 25 years. The application process for these impact grants is under development and would be reviewed and awarded in 2019 and 2020.

Turning to the key details of the preliminary budget, our recommendations for 2019 include:

✓ Increased operating grants to 83 of the region’s cultural and recreational assets. The hallmark of RAD funding unrestricted operating grants can be used for all of the basics, like staff, rent and utilities.
✓ $947,000 in increased support for libraries.

✓ Nearly $3.4 million in new capital projects in our regional parks and trails;

✓ $835,000 in capital grants for major projects at the Zoo, Phipps and Aviary along with capital grants to 23 other assets for facility improvements, accessibility projects, infrastructure repairs and equipment replacement.

✓ $800,000 to the Sports and Exhibition Authority for a multi-facility fund for its ongoing responsibility for capital improvements for the public facilities that it owns. Funding is not for everyday maintenance but would be used for capital repairs and improvements to the Convention Center, PPG Paints Arena, Heinz Field and PNC Park.

✓ A $3 million match for the Port Authority of Allegheny County that would be part of a local pool of $35.3 million that will leverage $234.3 million in state support.

✓ Pertaining to the Mattress Factory, all of our assets are required to be in compliance with all federal, state and local laws. In addition, assets actions must not have a material adverse effect on its operations. This preliminary budget shows the same amount that the Mattress Factory received in 2018 with a note. We have asked our legal counsel to review the pending allegations against the Mattress Factory. As a result of this review, we as a Board will then make a determination as to any allocation in our final budget.

  The plan is supported by an estimated $101.5 million in sales tax with the balance coming from reserve funds. Sales tax growth this year is both stronger than average and stronger than expected. While we cannot forecast this level of growth to sustain over time, we are taking advantage of this opportunity to make investments in the needs of our regional assets. We will reexamine the revenue projection during consideration of the final budget and recommend adjustments accordingly.

  Libraries remain the largest single category of RAD support with $32.5 million allocated to library service next year. Since 1995, and with this budget, libraries have received a total of $622.5 million in RAD funding.

  Regional parks and trails remain the second largest category of funding with $32.3 million recommended for operating support and capital grants for facility improvements, playground renovation, Schenley Park Ice Rink renovation, new park pavilions and new maintenance equipment. RAD’s support of trail development and enhancement continues this year with capital funding recommended for the Montour Trail and the Steel Valley Trail. With this budget, the regional parks and trails have received $582.1 million in RAD funding since 1995.

  The 2019 plan contains recommendations for increased operating support to all of the other contractual assets and most annual grant organizations based on their records of service. These organizations continue to make major contributions to the quality of life in our region.

  We also include $3.9 million in discretionary capital grants for upgrades at a number of facilities including exhibit renovations and water conservation efforts at the Zoo, continued
improvements to the historic glass house at Phipps, and fire and safety improvements at Soldiers and Sailors Memorial Hall. Many of the projects recommended for funding will reduce operating costs in the future, including window replacement at the Heinz History Center and LED lighting replacement at the Pittsburgh Glass Center. A number of other recommended projects would help assets leverage funding from other sources.

Three applicants would receive their first RAD allocation. They all add to the rich and diverse cultural landscape. The new organizations were evaluated by our Citizens Advisory Board screening panel in addition to our committee.

The preliminary budget allocates 31% of the funding to libraries and 31% to regional parks and trails all of which are free and open to the public; 13% to regional sports facilities and the convention center; 13% to arts and culture organizations; and 8% to regional facilities, which are the Zoo, Phipps and Aviary. Transit would receive 3% of the budget. Less than 1% goes to program administration.

In making this recommendation, we are reminded that civic institutions and nonprofits can, do, and should rely on a variety of sources of funding. In our review, we take note that applicants seeking earned revenue, individual donations, corporation donations, foundation grants, and government grants like RAD. While opinion varies as to the ideal mix of revenue, it is widely accepted that having multiple streams of revenue is important for risk management. That leads us to say that while there will always be challenges in raising resources, and there are never sufficient resources to meet all that is requested. We are confident that the public’s commitment reflected in this budget will help meet many of those challenges.

Our region can be proud that we have effective nonprofits and civic organizations that make our region a thriving place to live, work and play. Our libraries cooperate and connect every cardholder to every library in the county. Our parks and trails provide free recreation every day of the year. Our sports and civic facilities host world-class teams and concerts. Our Zoo, Phipps Conservatory and National Aviary are major forces for conservation. Our transit system brings millions of people to their places of work and to other regional assets. Our arts and culture organizations invite us in every day for music, dance and exhibits that engage our hearts and minds. In fact, our annual RADical Days event is now underway and provides the public with an opportunity to see their investment at no cost.

The Board does not vote on the budget until after we hear public comments and review updated revenue estimates. All of the allocations are subject to change before final budget adoption.

If the first 25 years of RAD is an indication of what is to come, we can expect that our region’s future is very bright, indeed.

Revenue

The District’s main source of revenue is one half of the proceeds from the Allegheny County 1% Sales and Use Tax. This tax is levied on the same base as the Pennsylvania Sales and Use Tax. The other half of the tax goes to Allegheny County and the municipalities within the county for tax relief, general government purposes and aid to councils of government and/or regional programs. The District is currently projecting it will receive $99.6 million in tax revenue in 2018. This is net of collection costs retained by the Pennsylvania Department of Revenue estimated to be $1.5 million for the District’s share of the sales tax.

The following chart illustrates the actual receipts from 1996-2017 with the projection for 2018 and 2019. Although the District enjoyed growth in most years up through 2000, tax receipts began to level in 2001. The fund returned to a growth mode in 2005 but declined during the 2008-2009 recession. Some growth in revenue in 2010 is attributed to one time delinquent tax collections but 2011-2013 growth appears related to economic recovery. The growth level sustained in 2014, slowed in 2015 and 2016, and grew in 2017. Revenue in 2018 is projected to be 1.7% higher than 2017 and is budgeted to increase 1.9% in 2019.
Interest earnings for 2019 are estimated to produce $500,000. In order to balance the budget, $6.5 million will be needed from the District’s grant stabilization reserve fund.

**Long Range Forecast**

For long range planning purposes, the District is assuming that revenue will grow 2% annually in subsequent years. The following chart illustrates the tax projection.

![Tax Revenue Projection](chart)

The Board established a grant stabilization reserve fund of approximately 15% of its annual tax revenue to accommodate serious shortfalls of revenue in any one year. Based on 2018 projections, the target level is $14.9 million. The District long range projections indicate that, absent unexpected changes in revenue and expenditure trends, the District can sustain the program at current levels through 2020.
**Allocations**

Out of a total allocation budget of $108.5 million, the District is proposing to allocate $76.5 million to contractual assets, $14.6 million to civic and cultural facilities and programs through annual grants, $13.4 million to a multi-year asset and $975,000 to administration. The operating grants amount to $98.6 million or 91% of the budget while capital grants amount to nearly $6 million or 5% of the budget. There is an additional $3 million for programming grants, including $2.5 million for Impact Grants which amounts to 3% of the budget. Administrative costs will use less than 1% of the allocations. The chart below illustrates the various functions supported by the allocations. In addition to the contractual assets and a multi-year grant to the Sport and Exhibition Authority, 94 other entities are proposed for funding.

Budget Process and Policy Objectives

The preparation of the preliminary budget follows an application process, which included public announcements and meetings, and evaluation of 117 eligible requests. Applicants were given the opportunity to make a presentation to the Board of Directors and/or Citizens Advisory Board over the course of six days of public review sessions. Applicants were asked to address three specific topics during their public hearing: define your organization’s regional impact, discuss your financial status and detail the need and use for any increased funding from the District.

The Board adopted a set of goals and priorities for evaluating the requests:

• To sustain and enhance the growth and quality of a diverse group of well managed and financially sound District based regional assets.

• To extend the benefits of asset programming to the widest possible audience.

• To encourage the involvement of young people as both audience and participants in asset activities.

Applicants were evaluated in four areas:

o Governance - including an active and involved board, realistic measurable goals; progress toward meeting the goals, regular strategic planning, accurate and timely financial reporting; realistic projections, operating within means, diversification of revenue, utilization of cash flow monitoring and ability to deal with financial stress (e.g. available cash reserves, low debt); efforts to reduce administrative and overhead costs through cost sharing initiatives.

o Programming - including scheduled, quality programming, outreach, audience development and community impact.

o Diversity - including efforts to encourage and to sustain board, staff and programming diversity through implementation of coherent diversity plans.

o Accessibility and Inclusion - including efforts to accommodate and increase participation by people with physical and cognitive disabilities.

Following is a listing and then a description of each recommended grant and detail on the District’s proposed 2019 administrative budget.

Allocation Descriptions

**Contractual Assets**

**ALLEGHENY COUNTY LIBRARY ASSOCIATION**
$6,896,375 (Operating)

The Allegheny County Library Association (ACLA) is a consortium of 46 member libraries that have joined to promote sharing of library services and resources. The Association is proposing to distribute the funds based on a formula that takes into account base support, distress, collection usage and population. The formula and distribution is subject to District Board approval. Funds also support bookmobile service and administrative costs.

**ALLEGHENY COUNTY - REGIONAL PARKS**
$21,640,961 (Operating) $1,500,000 (Capital)

Allegheny County operates nine regional parks, which comprise nearly 12,000 acres and include natural settings, picnic areas, recreational facilities and fields. The stated 2019 budget for the county parks is $45 million.

The District’s operating funds would be used to support the general operation of parks, including such items as salaries, materials and repairs. Capital funding is almost $500,000 higher than the 1% of tax revenue required by law. Capital funds would be used for facility improvements, park equipment and restroom renovations.

**CARNEGIE LIBRARY OF PITTSBURGH**
$22,062,065 (Operating)

The Carnegie Library of Pittsburgh serves not only as the principal library for the city and many non-city residents, but also as a district center and one of four resource libraries in the State of Pennsylvania. Carnegie Library’s stated 2019 operating budget is $37.1 million. The District’s funds would be used for general operating support.

**CARNEGIE LIBRARY OF PITTSBURGH – EIN Grant**
$3,322,319

Carnegie Library is the fiscal agent for the Electronic Information Network (eiNetwork/ein). Carnegie Library and ACLA jointly manage the eiNetwork, which is responsible for the Integrated Library Software system (used by all library staff), as well as internet access used by all libraries in the County and the online Library Catalog available via the Web (used by the public). The eiNetwork oversees the high speed fiber network that connects all libraries. The 2019 stated operating budget of the EIN is $4.1 million.
