Introduction

The Allegheny Regional Asset District is an area wide special purpose unit of local government that exists under authority of Pennsylvania Act 77 of 1993. The area of the District is the same as Allegheny County, Pa. The purpose of the District is to distribute one half of the proceeds from the one percent county sales tax revenue to projects and facilities designated as regional assets. The act specifically describes those assets as civic, recreational, sports and cultural facilities, libraries and other entities as determined by the Board of Directors.

Grants to regional assets are made through a public budget process. Under the Act, the District is required to prepare a preliminary budget ninety days prior to the end of its fiscal year, which is the same as a calendar year. It then must adopt a final budget thirty days prior to the end of its fiscal year. Final allocations must be supported by six of the seven voting Board members who are required to hold a public hearing on the proposed budget.

This preliminary budget and individual allocations are subject to modification prior to adoption. It does not represent final Board approval of particular allocations.

Certain assets have been given status as “contractual assets”; that is, they have contracts with the District guaranteeing funding for a period of five years (thru 2024). In addition, the District has entered into a multi-year commitment with the Sports and Exhibition Authority related to finance facility debt service. The District has also elected to fund other organizations referred to as “annual assets” which means they must apply for support consideration each year. The budget is organized to reflect these three asset categories.

Questions or comments concerning the budget may be addressed to the District in writing, via appearance at a public hearing or during the public comment period held at each regularly scheduled Board meeting. A schedule of meetings as well as additional information may be obtained from the District office at:

436 Seventh Avenue, suite 2201

Allegheny Regional Asset District  
Report of the Allocations Committee  
September 26, 2019

Board Members:

We are submitting for your consideration a proposed 2020 budget totaling $109.4 million including recommendations for operating and capital grants to 106 organizations.

Our proposed recommendations include:

- Increased operating grants to many of our region’s arts, cultural and recreational assets for unrestricted operating support.

- Nearly $980,000 in increased support for libraries.

- Funding of $4.1 million in capital projects in our regional parks and trails. This includes a $1 million investment earmarked for Emerald View Park to aid the city in renovating and reopening the Grandview Overlooks – one of the most visited tourist destinations in the region.

- Over $1.3 million in capital grants for major projects at the Carnegie Museums, Zoo, Phipps Conservatory and National Aviary.

- A $3 million grant for the Port Authority of Allegheny County supporting many of the riders who use public transportation to get to work and visit the assets. The matching grant is part of a local pool of $35.9 million that leverages $239.3 million in state support.

The plan is supported by an estimated $103.5 million in sales tax with the balance coming from the grant stabilization reserve. Sales tax growth this year is stronger than expected. While we are not forecasting this level of growth for next year, we are taking advantage of this opportunity to make investments in the needs of our regional assets. We will reexamine the revenue projection during consideration of the final budget and recommend adjustments accordingly.

Over the last month, during nearly 20 hours of public presentations before the Board and Citizen’s Advisory Board, applicants reported on their regional impact, financial status and how they would use an increase in District funds. As part of the Board’s thorough examination of the applications, conditions or contingencies are often placed on several organizations before funding is released.

Many of the capital projects recommended for funding will reduce operating costs in the future, including HVAC system upgrades at the Pittsburgh Opera and August Wilson African American Cultural Center. A number of other recommended projects would help assets leverage funding from other sources or require a match.
We are pleased to recommend that three organizations receive RAD funding for the first time: Belle Voci, Daisy Wilson Artist Community (August Wilson House) and Guardians of Sound. They all add to the rich and diverse cultural landscape. The new organizations were evaluated by our Citizens Advisory Board screening panel in addition to our committee.

The preliminary budget allocates 31% of the funding to libraries and 31% to regional parks and trails all of which are free and open to the public; 13% to regional sports facilities and the convention center; 13% to arts and culture organizations; and 8% to regional facilities, which are the Zoo, Phipps and Aviary. Transit would receive 3% of the budget. Less than 1% goes to program administration.

The Allocations Committee would like to stress that this is a preliminary budget. The Board does not vote on the budget until after we hear public comments and review updated revenue estimates. All of the allocations are subject to change before final budget adoption.

We look forward to hearing from the public in the coming weeks.

A detailed listing of the recommended grants follows: Applicants not listed have not been recommended at this time. These recommendations are preliminary and subject to change on final adoption of the budget.
Revenue

The District’s main source of revenue is one half of the proceeds from the Allegheny County 1% Sales and Use Tax. This tax is levied on the same base as the Pennsylvania Sales and Use Tax. The other half of the tax goes to Allegheny County and the municipalities within the county for tax relief, general government purposes and aid to councils of government and/or regional programs. The District’s 2019 tax revenue budget of $101.5 million was revised during the year due to stronger sales growth, and is currently projected to reach $104.6 million for the year. This figure is net of collection costs retained by the Pennsylvania Department of Revenue estimated to be $1.5 million for the District’s share of the sales tax.

The following chart illustrates the actual receipts from 1996-2018 with the projection for 2019 and 2020. Although the District enjoyed growth in most years up through 2000, tax receipts began to level in 2001. The fund returned to a growth mode in 2005 but declined during the 2008-2009 recession. Some growth in revenue in 2010 is attributed to one time delinquent tax collections but 2011-2013 growth appears related to economic recovery. The growth level sustained in 2014, slowed in 2015 and 2016, and grew in 2017 and 2018. Revenue in 2019 is projected to be 2.7% higher than 2018. Based on the revised 2019 revenue projection, the District’s 2020 revenue estimate indicates a slight decrease at this time.

Interest earnings for 2020 are estimated at $500,000. In order to balance the budget, $5.4 million will be needed from the District’s grant stabilization reserve fund.
**Grant Stabilization Reserve**

The Board established a grant stabilization reserve fund of approximately 15% of its annual tax revenue to accommodate serious shortfalls of revenue in any one year. Based on 2020 projections, the target level is $15.5 million.

**Allocations**

Out of a total allocation budget of $109.4 million, the District is proposing to allocate $79.5 million to contractual assets, $15.1 million to civic and cultural facilities and programs through annual grants, $13.4 million to a multi-year asset and $1 million to administration. The operating grants amount to $101.3 million or 92.5% of the budget while capital and programming grants amount to $7.1 million or 6.5% of the budget. Administrative costs will use less than 1% of the allocations. The chart below illustrates the various functions supported by the allocations. In addition to the contractual assets and a multi-year grant to the Sport and Exhibition Authority, 97 other entities are proposed for funding.

![Categories as a % of Budget](chart.png)
Budget Process and Policy Objectives

The preparation of the preliminary budget follows an application process, which included public announcements and meetings, and evaluation of 113 eligible requests. Applicants were given the opportunity to make a presentation to the Board of Directors and/or Citizens Advisory Board over the course of seven days of public review sessions. Applicants were asked to address three specific topics during their public hearing: define your organization’s regional impact, discuss your financial status and detail the need and use for funding being sought from the District.

The Board adopted a set of goals and priorities for evaluating the requests:

• To sustain and enhance the growth and quality of a diverse group of well managed and financially sound District based regional assets.

• To extend the benefits of asset programming to the widest possible audience.

• To encourage the involvement of young people as both audience and participants in asset activities.

Applicants were evaluated in four areas:

o Governance - including an active and involved board, realistic measurable goals; progress toward meeting the goals, regular strategic planning, accurate and timely financial reporting; realistic projections, operating within means, diversification of revenue, utilization of cash flow monitoring and ability to deal with financial stress (e.g. available cash reserves, low debt); efforts to reduce administrative and overhead costs through cost sharing initiatives.

o Programming - including scheduled, quality programming, outreach, audience development and community impact.

o Diversity - including efforts to encourage and to sustain board, staff and programming diversity through implementation of coherent diversity plans.

o Accessibility and Inclusion - including efforts to accommodate and increase participation by people with physical and cognitive disabilities.

Following is a listing and then a description of each recommended grant and detail on the District’s proposed 2020 administrative budget.

Allocation Descriptions

**Contractual Assets**

**ALLEGHENY COUNTY LIBRARY ASSOCIATION**

$7,103,266 (Operating)

The Allegheny County Library Association (ACLA) is a consortium of 46 member libraries that have joined to promote sharing of library services and resources. The Association is proposing to distribute the funds based on a formula that takes into account base support, distress, collection usage and population. The formula and distribution is subject to District Board approval. Funds also support bookmobile service and administrative costs.

**ALLEGHENY COUNTY- REGIONAL PARKS**

$22,290,190 (Operating) $1,300,000 (Capital)

Allegheny County operates nine regional parks, which comprise nearly 12,000 acres and include natural settings, picnic areas, recreational facilities and fields.

The District’s operating funds would be used to support the general operation of parks, including such items as salaries, materials and repairs. Capital funding is $265,000 higher than the 1% of tax revenue required by law and would be used for facility renovations, park maintenance equipment and restroom renovations.

**CARNEGIE LIBRARY OF PITTSBURGH**
