INTRODUCTION

The Allegheny Regional Asset District is an areawide special purpose unit of local government that exists under authority of Pennsylvania Act 77 of 1993. The area of the District is the same as Allegheny County, PA. The purpose of the District is to distribute one half of the proceeds from an additional one percent county sales tax revenue to projects and facilities designated as regional assets. The act specifically describes those assets as civic, recreational, sports and cultural facilities, libraries and other entities as determined by the Board of Directors.

Grants to regional assets are made through a public budget process. Under the Act, the District is required to prepare a preliminary budget ninety days prior to the end of its fiscal year, which is the same as a calendar year. It then must adopt a final budget thirty days prior to the end of its fiscal year. Final allocations must be supported by six of the seven voting Board members who are required to hold a public hearing on the proposed budget.

Certain assets have been given status as “contractual assets”; that is, they have contracts with the District guaranteeing funding for a period of five years (through 2029). In addition, the District has entered into a multiyear commitment with the Sports and Exhibition Authority related to finance facility debt service. The District has also elected to fund other organizations referred to as “annual assets,” which means they must apply for support consideration each year. The budget is organized to reflect these three asset categories.

Questions or comments concerning the budget may be addressed to the District in writing, via appearance at a public hearing or during the public comment period held at each regularly scheduled Board meeting.

REPORT OF THE RAD ALLOCATIONS COMMITTEE - NOVEMBER 20, 2025

Board Members,

We are pleased to present the final 2026 budget authorizing \$147.9 million in investments across our regional assets and operations for your consideration. This represents an increase of \$1.3 million over the preliminary budget released on September 25, 2025. The investment underscores RAD's enduring commitment and support for what makes Allegheny County a vibrant place to live, visit, and explore.

Since the preliminary budget was released, we monitored revenue trends, engaged with the public, and evaluated specific funding requests. The 2026 budget is supported by an estimated \$135 million in new sales tax revenue—aligned with our earlier projections—with the remainder drawn from the District's grant stabilization reserve, investment and interest earnings, and general fund surplus. All grants proposed in the preliminary budget have been retained, with additional funding allocated for operating and capital improvements.

Under this proposal:

- Libraries, parks, and trails—free and accessible year-round—will receive 64.1% of the budget.
- Sports facilities and the convention center will receive 9.6%.
- Arts and cultural organizations are allocated 12.8%.
- Regional attractions such as the Zoo, Phipps, and Aviary will receive 9%.
- Public transit will account for 2% of spending.
- An additional \$1.5 million (1%) is designated for Partnerships and Initiatives aimed at expanding public access to regional assets.
- Accessibility & Inclusion and Connection project grants will continue at \$750,000.
- District operations will remain under 1% of revenue, supported by prior-year General Fund surpluses.

The year 2025 brought challenges to many of our Regional Assets, but RAD remained a reliable source of support amid uncertainty. We take pride in being a consistent and transparent partner to more than 100 organizations annually. The 2026 budget reflects our commitment to thoughtful stewardship and responsiveness to community needs. Together with our partners, we're eager to embrace the promising future that lies ahead for Allegheny County.

Alongside this report, we are submitting a resolution to authorize the necessary grants and empower staff to implement the budget. We respectfully recommend its adoption.

BUDGET PROCESS & POLICY OBJECTIVES

The preparation of the budget follows an application process, which included public announcements and meetings, and evaluation of 120 eligible requests. Applicants were given the opportunity to make a presentation to the Board of Directors and/or Citizens Advisory Board over the course of four days of public review sessions. Applicants were asked to address RAD funding uses and 2026 budget preparation, including backup plans, key initiatives and strategic plan action items, and the organization's commitments to Governance, Programming, Diversity, and Accessibility & Inclusion.

The Board adopted a set of goals and priorities for evaluating the requests:

- To sustain and enhance the growth and quality of a diverse group of well managed and financially sound District-based regional assets.
- To extend the benefits of asset programming to the widest possible audience.
- To encourage the involvement of young people as both audience and participants in asset activities.

Applicants were evaluated in four general areas:

- 1.** Governance - including an active and involved board, realistic measurable goals; progress toward meeting the goals, regular strategic planning, accurate and timely financial reporting; realistic projections, operating within means, diversification of revenue, utilization of cash flow monitoring and ability to deal with financial stress (e.g. available cash reserves, low debt); efforts to reduce administrative and overhead costs through cost sharing initiatives.
- 2.** Programming - including scheduled, quality programming, outreach, audience development and community impact.
- 3.** Diversity - including efforts to encourage and to sustain board, staff and programming diversity through implementation of coherent diversity plans.
- 4.** Accessibility and Inclusion - including efforts to accommodate and increase participation by people with physical and cognitive disabilities.

SALES & USE TAX GENERAL INFORMATION

Rate

The state tax rate is 6%. Allegheny County sales tax rate is an additional 1%.

Base

The tax is levied upon the retail sale of tangible personal property and certain services. Use tax is levied upon tangible personal property and taxable services purchased outside the Commonwealth but used therein if tax was not paid at time of purchase. A hotel occupancy tax is levied upon room rentals of less than 30 days by the same person.

Exemptions

Major exemptions include: food (ready-to-eat food is not exempt), most footwear and clothing, textbooks, prescription and non-prescription drugs, sales for resale and residential heating fuels. All government and non-profit purchases are also exempt.

Methodology

The sales and use tax model is a quarterly cash flow model with two components: non-motor vehicle and motor vehicle. Most non-motor sales and use taxes are remitted monthly based on actual collections from the prior month and anticipated collections for the current month. For motor vehicle purchases, the sales tax remittance occurs when the application for title is made.

REVENUE PROJECTIONS (updated April 2026)

Based on recent revenue performance and long-term historical trends, the District anticipates moderate and steady growth in sales tax revenues over the next five years. Projections assume a continued normalization following post pandemic volatility and reflect the maturity of the regional tax base. Over the long term, sales tax revenues have demonstrated consistent resilience, with multi-decade average annual growth generally in the 2–4% range, excluding recessionary and rebound years. Looking ahead, management projects conservative annual growth of approximately 1–3%, reflecting regional economic conditions, consumer spending trends, and the inherently stable nature of the District’s dedicated tax base. This measured outlook supports continued funding of contractual obligations and annual assets while maintaining prudent reserves to manage potential short-term fluctuations.

Under a conservative planning assumption of approximately 2% annual growth, sales tax revenues are projected to support ongoing contractual obligations, annual asset funding, and debt service requirements while maintaining appropriate financial flexibility. This outlook balances fiscal prudence with the District’s responsibility to provide stable and predictable funding to regional assets.
